Trust Experience

Commercial Pump Service, Inc, owner Mark Hodkin, has established a reliable reputation throughout Northern California and Nevada for high quality work and professionalism. CPS, Inc makes every effort to provide their customers with swift response to emergency repair situations.

As a licensed contractor certified in electrical controls, machinery and pumps, Commercial Pump Service, Inc is also experienced in pump application, design, construction and repairs.

Mark and his team of factory-trained service technicians have installed and serviced pumping systems for golf courses, turf irrigation, parks, municipal and commercial high rise buildings.

Commercial Pump Service, Inc is dedicated to providing customers the very best in quality service, workmanship and equipment.

"Thank you very much for another fine job for Flowtronex PSI. I am very proud to be associated with your company."

-John Murtaugh
Director of Customer Service, Flowtronex

Trust Flowtronex

By using 'cutting edge technology', Flowtronex, a pioneer in variable speed packaged pumping systems, has become the world class leader in golf course irrigation systems. Flowtronex has been successfully providing superior quality pump stations to the top 100 golf courses in 75 countries for thirty years.

Commercial Pump Service, Inc is proud to be an integral part of the Flowtronex team as a four-time award winning, factory certified representative since 1997.
